DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3-4,6-7,9,11-14 and 16-17 rejected under 35 U.S.C. 102(b) as being clearly anticipated by JP 200317533 for the reasons set forth in the rejection to the same claims in paper no.4.

【 3 】

Applicant argues that JP '533 fails to teach the step of moving the roller in a parallel direction with respect to the central. However, as can be seen in figure 3 of JP'533 above, the roller 30 moves both transversely and parallel to the central axis, as shown by the two arrows. This is also shown in Figure 5.

Claim Rejections - 35 USC § 103

Art Unit: 3726

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 5, 12 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP'533 in view of Massee for the reasons set forth in paper no. 4.

Applicant's only argument to the rejection of these claims is that they depend from claims which he believes are allowable. The issue with those claims has been addressed above.

Claims 13 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP '533 in view of Irie for the reasons set forth in paper no. 4. the only arguments applicant makes to the rejection is to state that the claims depend from allowable claims. This issue is addressed in the above 102 rejection.

Response to Arguments

Applicant's arguments filed 9/2/03 have been fully considered but they are not persuasive. It is believed that applicant's arguments have been addressed in the above rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3726

" A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
